	Title
1	Identifier vocabulary data access method and system
2	Apparatus and method for facilitating trusted business intelligence through data context
3	Exporting a document in multiple formats
4	Method for finding data, research engine and microprocessor therefor
5	APPARATUS AND METHOD FOR DEFINING REPORT PARTS
6	Method, system and apparatus for a parser for use in the processing of structured documents
7	System and method for managing knowledge
8	Application Program Interface for Network Software Platform
9	Navigating table data with mouse actions
10	Method and apparatus for detecting pagination constructs including a header and a footer in legacy documents
11	Method and apparatus for utilizing an extensible markup language schema for managing specific types of content in an electronic document
12	Document creation system and method using knowledge base, precedence, and integrated rules
13	Identifier vocabulary data access method and system

	Title
14	Word-processing document stored in a single XML file that may be manipulated by applications that understand XML
15	Intermediate viewer for transferring information elements via a transfer buffer to a plurality of sets of destinations
16	Word-processing document stored in a single XML file that may be manipulated by applications that understand XML
17	Programming interface for a computer platform
18	Programming interface for a computer platform
19	Document creation system and method using knowledge base, precedence, and integrated rules
20	Document creation system and method using knowledge base, precedence, and integrated rules
21	Document creation system and method using knowledge base, precedence, and integrated rules
22	Single column layout for content pages
23	Real-time on-demand dynamic document generation
24	Word-processing document stored in a single XML file that may be manipulated by applications that understand XML
25	Data driven web page generator

	Title
26	Method and apparatus for creating and accessing associative data structures under a shared model of categories, rules, triggers and data relationship permissions
27	Identifier vocabulary data access method and system
28	Method and apparatus for communicating changes from and to a shared associative database using one-way communications techniques
29	Method and apparatus for sharing many thought databases among many clients
30	System and method for the management of distributed personalized information
31	Real-time-on-demand dynamic document generation
32	Registration method and search method for structured documents
33	System and method for automatic loading of an XML document defined by a document-type definition into a relational database including the generation of a relational schema therefor
34	Systems and methods for content delivery over a wireless communication medium to a portable computing device
35	Method and apparatus for displaying a thought network from a thought's perspective
36	INFORMATION PROCESSING APPARATUS AND METHOD, AND COMPUTER READABLE MEMORY THEREFOR

	Title
37	TRANSFROMATION OF MARKED UP DOCUMENTS USING A BASE ARCHITECTURE
38	Method and system for dynamically capturing HTML elements
39	Document creation system and method using knowledge base, precedence, and integrated rules
40	Identifier vocabulary data access method and system
41	System and method for the management of distributed personalized information
42	Technique for encapsulating a query definition
43	Application program interface that enables communication for a network software platform
44	Method and apparatus for sharing many thought databases among many clients
45	System and method for automatic loading of an XML document defined by a document-type definition into a relational database including the generation of a relational schema therefor
46	System and method for synchronizing and/or updating an existing relational database with supplemental XML data
47	Method and system for storing and retrieving documents
48	Registration method and search method for structured documents
49	Identifier vocabulary data access method and system

	Title
50	System and method for disconnected database access by heterogeneous clients
51	Real-time-on-demand dynamic document generation
52	System and method for efficient layout of a display table
53	Information processing apparatus and method, and computer readable memory therefor
54	Method and search method for structured documents
55	Searching for documents with multiple element types
56	System for presenting and managing enterprise architectures
57	Method for generating audio renderings of digitized works having highly technical content
58	Method and apparatus for format conversion of a hierarchically structured page description language document
59	System and method for editing a structured document to preserve the intended appearance of document elements
